

INTELLIGENT CONTROLS

SMARTER ENERGY

LED installations significantly reduce your energy bill and support a greener environment. Intelligent Controls harness the efficiency of LED lighting, while adding the intelligence of smart sensors to provide even greater energy efficiency.

Light up a room with only your presence with occupancy sensors, and eliminate wasted energy with automatic dimmers.

It *feels* good entering a space that looks revitalized and new, and industry advancements have made this technology more affordable than ever. Plus, with AES, we work on your behalf to obtain rebates that lower costs even further.

Adding networking controls to your lighting grid increases access, putting you in the driver's seat of your energy consumption.

Our solutions are scalable and technicians are adaptable, servicing cozy multi-family living spaces and acre-large warehouses alike.

Product Highlights

- Visually revitalized space
- Reduced energy costs
- Automated lighting control
- Eco-friendly
- Custom-built solutions

Advanced Control

With smarter technology comes increased access. Control over your environment is right at your fingertips.

Daylight Harvesting

With state of the art sensors and receivers, rooms are able to use natural light to reduce energy usage.

Automated Savings

When empty rooms are dimmed, you save. When natural light is used you save. And we're just getting started.

Clear Solutions for Energy Efficiency

AES COMMITMENT TO SERVICE

For over 15 years, American Energy Services has been a trusted provider of single and multi-product energy solutions. AES is dedicated to delivering **cost-effective energy solutions** and establishing long-term relationships with commercial and public customers based on exacting technical and ethical standards and achieving measurable results.

At AES we believe in earning the respect and trust of our clients, and after more than a decade of providing clients with full turnkey solutions we still hold fast to that foundational belief.

American Energy Services leverages **a national network** of AES offices and certified partners serving small businesses, Fortune 500 companies, government agencies, healthcare facilities, property management companies, and schools and universities.

Protocols can be configured for simple room control or breathtaking, light-inspired experiences.
